

# The Bow Valley Call

Devoted to the Up-Building of Gleichen and the Development of the District Generally

Year VI., No. 50.

GLEICHEN, ALBERTA, THURSDAY, FEBRUARY 20, 1913

Per Year \$1.50

## Town Council.

The meeting of the Town Council last Thursday evening proved quite interesting, although there were few motions passed.

Mayor Bray occupied the chair, and Councillors Yates and McKay were the only absentees.

The reading of the minutes of the previous meeting were duly passed and the only item the CALL missed in its publication was a motion to the effect that Harold W. Riley be advised that as the council had already obtained information it would be unnecessary for him to come from Calgary to discuss municipal matters with this council.

Dr. Lafferty, representing Gleichen Trading Co. and Mr. Jas. Cameron, manager of the Bank of Commerce being present the Mayor asked if they wished to address the council.

On rising, Dr. Lafferty said that he desired to place before the Council the views of the property owners on Crowfoot street between Third and Fourth avenues relating to fire protection. The property owners were desirous of erecting a fire-wall on the little alley between the property of the Gleichen Trading Co. and the Gleichen Hotel, which was about the centre of the main business block in town. He had made enquiries as to the effect such a fire wall would have on insurance and was assured it would have the relation of being the keynote of the block in case of fire and considerably reduce the cost of insurance, but still not in comparison to the cost of the wall. The wall would cost in the neighborhood of \$2,500. It would have to be at least two feet wide at the base and extend one foot over the highest building in the block. The property owners had signified their willingness to bear the cost proportionately, but the trouble would be in the maintenance and ownership of the fire wall. For this reason he believed it desirable that the town should own the wall. Thus it would be necessary for the town to build it and assess those benefited accordingly. The doctor admitted it would be very difficult to adjust an equitable assessment, and submitted figures of the reduction it would make in the insurance of the property owners in the block.

Mr. Cameron spoke briefly on the matter and read a letter from the Commerce headquarters stating the bank was prepared to bear a share of the cost of the fire-wall. He stated that he thought it wise for the council to consider the matter and pointed out that in Strathmore the town had erected three fire-walls. He thought this fire-wall would also be of benefit to property immediately north of the block and to some extent east. He also believed that the erection of the fire-wall could be considered in the light of a local improvement.

Several of the aldermen asked questions and in the end the Mayor promised that the matter would receive consideration and the delegates retired.

Upon their departure a short discussion was indulged in but it was the general opinion that the town's financial condition would not permit of undertaking the proposition at present and that at this time of year it was not expedient to attempt to erect such a structure it would be well to leave the matter over for future consideration.

Several letters read referred to accounts and asked for payment. On motion of Ald. Service and Gaudaur the following motion was

passed:

"That the mayor and secretary be authorized to sign a note for 90 days in favor of the John Galt Engineering Co. for \$739.80 in payment of their claim. Note dating from Feb. 14th."

A number of accounts being submitted Alds. Service and Leggat moved that the following be passed:

International Coal and Coke Co.	\$67.14
Alberta Transfer	3.93
F. C. Vigar	31.50
Alberta Telephone	.70
A. R. Yates	4.70

Attention being drawn to a veranda under construction on Fifth Avenue, Alds. Leggat and Larkin carried:

"That Mr. Ostrander be notified that he must comply with the by-law re sidewalks and posts."

A letter from Mr. Palmer, of Crowfoot being read by the Mayor complaining of the manner in which the cemetery has been conducted for several years past occupied considerable time in discussion and it was decided to start a cemetery account for use only in improving the grounds and keeping the stakes in place. Alds. Leggat and Service carried:

That the secretary prepare a by-law to the effect that all stone or iron monuments and tombstones erected in the cemetery be built on a cement foundation three feet under ground and to extend not less than six inches on all sides of the monument or tombstone.

## The Cattle Question Again

With one or two exceptions all the cattle kings of the past have gone out of business, and their place has been taken by the small holders who are in turn becoming independent. While the number of cattle shipped from the old time ranching districts has decreased, the shipments from the agricultural districts have increased at almost a corresponding rate. The fact is that the small farmers, especially in southern Alberta, all possess small "bunches" of cattle and are continually increasing their stock.

With cattle scattered all over the in this way, it is impossible to get anything like a fair estimate of their numbers, but in the opinion of the Hon. Duncan Marshall, Minister of Agriculture for Alberta, and many men connected with the livestock business, there are as many cattle in the province as there were in the days of the open range. Nor is the difference in the stock situation merely one of the ranging herd and the homesteaders' "bunch," but also in the variety of stock kept. Sheep and hogs are more in evidence. So long as beef is high, good prices will obtain for mutton and pork. Alberta has just as favorable opportunity for the production of these elsewhere. It has been found that the frosted and immature grain fed to swine or sheep will bring returns equivalent to \$1.00 wheat. Small wonder then that a change is coming over the province, so that dotted here and there amid the great harvest fields, or roaming across the fallow ground, are to be seen numerous bunches of cattle which in the aggregate, will soon outstrip the herds of the oldtime cattle kings.—Calgary Standard.

As we go to press, we are glad to learn that Jos. Arial, who has been seriously ill of pneumonia is slightly improved, though not yet out of danger.

## Cluny Newslets

(Our own correspondent)

Adolph Plant of Gleichen, is making every preparation to erect a meat market in Cluny, already his ice house is completed and full to the top. Work on the main building was started Monday and Mr. Plant hopes to be ready for business the middle of next month.

Grain hauling from the south continues and so far the greatest number of teams hauling grain to Cluny in one day was 80. Truly we can claim to be a grain center.

A dance has been arranged for Friday, Feb. 28th, to which all who love to trip the light fantastic are invited. Indeed, dancing has been most popular the past few months at Cluny, and those attending from a distance say that this is the place to come for a good time.

The local elevator and shipping facilities are altogether inadequate to handle the grain coming into this place despite the fact that many granaries have been erected, and it is hoped that a farmer's elevator will be erected before another season.

The telephone inspector has been working between here and Queens-town and it is understood that a line is to be erected at once into the heart of this great grain growing district.

Your readers should look out for a statement of the grain shipped from Cluny. Your correspondent has most of the data at hand now but before presenting it to the public will be absolutely sure it is correct.

Last Thursday evening another successful dance was given here, about forty couples being in attendance. Their enjoyment is perhaps best told by saying that it was 5.45 the following morning before the "Home Sweet Home" waltz was heard.

J. H. Edwards returned a week ago to Cluny from a trip to Iowa, and to your correspondent stated that he brought with him some excellent horses, consisting of ten Percherons and five shires, which make a total at his ranch of twenty-five stallions ranging from one to three years of age. He said he was placing at the head of his stock the stallion "Capital" which is sired by the famous horse "Carnot" who was champion of the Paris exposition and won first at the Chicago International Fair, where he was sold at the highest price of any draft horse ever sold in the United States. Mr. Edwards considers himself very fortunate in securing so desirable a horse to place at the head of his already valuable stock. He also has twelve exceptionally fine registered mares from which to breed. Speaking of "Capital" he quotes A. Latimer Wilson, who was judge at the International for seven successive years, whom he says considers this young stallion one of the best, if not the best, imported into the United States during 1912. "Capital" is only two years of age, weighs 1550 pounds and has 14 inch bone below the hock, which Mr. Edwards says goes to prove he is endeavoring to raise the right class of horses for this district. The other horses he describes as the best that money can buy. Mr. Edwards extends an invitation to all to visit his ranch and particularly to farmers to bring their sons to see his horses in order that they may be able to study the animals. He stated that while he does not claim to be raising the most stock in this district he is endeavoring to raise the best, which is certainly commendable.

All the pioneers of this district will regret to learn of the death of Mrs. D. F. Knight at her home in Fredericton, N. B., on February 8. Mrs. Knight arrived in Gleichen some 28 years ago with her husband who survives her, as well as one son and a daughter. Deceased first came west as far as Winnipeg—then called Fort Garry—in 1880, coming up the Red River in a flat-bottomed boat. At that time she refused to accept one of the best lots in Winnipeg to-day for a yoke of oxen.

Later she came to Gleichen and Mr. Knight built the second store here, the one now occupied by McCammon & Ramsay. Returning on a visit to Fredericton she brought back with her, her nephew, Frank K. McKay, then quite a young boy but who is still in Gleichen and proprietor of the McKay Hardware business. Mrs. Knight was well-known and highly respected by the old-timers and the Blackfoot Indians, whom Mr. McKay states are constantly asking for information concerning her.

The Gleichen Fire Brigade is to be complimented on the success of the first of the series of entertainments the boys have arranged. The Dixie Jubilee Singers gave an excellent entertainment Saturday night, before one of the largest audiences ever seen in the Opera House and all went away satisfied. The receipts amounted to a little over \$186.00 and the Brigade cleared fully \$73. It is safe to say that the boys will now have the confidence of the public in putting on good entertainments and that they will receive the patronage they so much deserve. The next show comes on March 7th with the Caledonian Entertainers, which promises to be exceptionally good.

A meeting of the directors of the Gleichen District Agricultural Association will be held in the Town Hall, Thursday evening, Feb. 20th, to discuss the advisability of giving a dance and other matters of importance.

R. A. Brown, P.N.G., left Monday night to attend the Grand Lodge of Alberta, I.O.O.F. in session at Calgary for four days, as a delegate from Prairie Lodge No. 44.

## Coming Events.

Notices under this heading 25c a line unless otherwise advertised in CALL.

- Feb. 20—Ladies' Aid Meeting.
- Feb. 20—Agricultural Meeting.
- Feb. 21—W. A. Social at Mrs. Jas. Cameron's.
- Feb. 22—Creamery Annual Meeting.
- Feb. 28—Public Farmers Union meeting.
- Mar. 7—Caledonian Entertainers.
- Mar. 11—Board of Trade.
- Mar. 20—Herald Square Entertainers.

## A Successful Skating Carnival

The Carnival given by the Hockey Club on Wednesday evening of last week proved quite successful, although there were hardly as many in costume as expected, which was undoubtedly due to the mild weather. However, there were about thirty-five under mask and the costumes were good and varied. Unfortunately only about six of these gave their name and costume in, and, therefore, the CALL is unable to give a list of them, much as we would have liked. The judges were Mr. and Mrs. McCammon and Mrs. Henderson of Gleichen and Mr. Moss, of Mossleigh, who were heartily applauded in their decisions. J. L. Laycock was selected to award the prizes which were as follows:—

Ladies' best—Miss Bell Larkin, "Boost Gleichen".—Jewel Case.  
Ladies' Comical—Mr. Fred Jones, "Kitchen Maid".—Fair Flower Vases.  
Gents' best—C. J. Gaudaur, "Nobody Knows".—Pipe.  
Gents' Comical—Carl Stump, "Gleichen Hockey League".—Wallet.  
Boy's best—Willie Burr, "Hobo".—A Fountain Pen.  
Girls' best—May Jones, "Flower Girl".—Box Chocolates.

There was a fair attendance of spectators and the Hockey Club were able to add a few dollars to their funds.

## Gleichen's Meteorological Report

The following weather report is supplied by J. W. Jowett, who is officially appointed by the Dominion Government:

W. N. U. 938

## PARLIAMENTARY HOWLERS

M.P.'s Who Have Set the House in a Roar

It would be hard to say which of the two Houses of Legislature takes the cake for committing howlers, and still more difficult to pick out the member who has taken pride of place in this respect during recent years. But perhaps for simple effectiveness Lord Balfour of Burleigh would be hard to beat when he said: The noble Lord shakes his head, and I am glad to hear it!

Another noble lord, during a debate on Indian affairs, exclaimed: Talk of this as a loan to India! It is a bite in the ocean! Nevertheless, it stands to reason that the lower house is more prolific in quantity, if not in quality, in its stock of howlers than more opportunities.

Captain Craik, the fiery Ulsterman, cooked the following oratorical stew: "The naked sword is drawn for the fight, and never again will the black smoke of the Nationalists' tar-barrel drift on the Home Rule wind to darken the hearts of Englishmen." If anything could kill Home Rule, one would think that would.

A Nationalist member, upon a recent occasion, was pouring ridicule upon the fact that farms from which both tenants and live stock had been evicted were under police protection. What foolishness! he said, when all the beasts on it are the sea-shells that fly over it!

Sir W. Hart Dyke was criticizing the Standing Order forbidding peers from speaking during general elections. Someone had quoted Lord Harebury as saying so, and Sir William solemnly said: I must admit that the noble gentleman has gone to the top of the tree and caught a very large fish.

## TO CURE A COLD IN ONE DAY

Take LAXATIVE BROMO QUININE Tablets. Druggists refund money if it fails to cure. E. W. GROVE'S signature is on each box. 25c.

## Profitable Litigation

Among the curiosities of litigation may be cited the following case. On the boundary line of two farms in an Austrian village there grew a large gooseberry-bush, from which the two farmers for years gathered the product. What grows on my side is mine, and you may have the rest, was the agreement.

Some time ago the neighbors had a misunderstanding, and this came to a climax when the gooseberries became ripe. A lawsuit followed, and appeals were made to higher judicial bodies. The final decision was later recorded in the Austrian courts.

Each party is to have the right to pick the berries which grow on his side of the line, just as it was originally, but neither may destroy the bush. The costs are charged half to each litigant. Each farmer had to pay 225 kronen. The yearly yield of the bush is worth about one-half kronen, and the judge told the fighting farmers: With good luck, it will take you only 800 years to make the bush pay. Take good care of it.

Fairville, Sept. 30, 1902.  
Minard's Liniment Co., Limited.  
Dear Sirs,—We wish to inform you that we consider your MINARD'S LINIMENT very superior article, and we use it as a sure relief for sore throat and chest. When I tell you I would not be without it if the price was one dollar a bottle, I mean it.  
Yours truly,  
CHAS. F. TILTON.

## Earning a Quarter

The modern alms-collecting is nothing if not up to date in his methods. The other day a shabbily-dressed individual, purporting to be an emissary of the Fisherman's Home, coolly took a box round while an open air meeting was in progress.

For a time he and his box were merely glanced at by the audience, until he presently came upon a wealthy gentleman wearing a gold watch and chain and a diamond ring.

Thinking of take a rise out of him, the wealthy gentleman decided to probe him.

Do you fish? he asked of the emissary.

Yes, sir, came the respectful answer.

Ah, continued the gentleman, then sling your hook.

The alms-collector, however, stolidly stood his ground.

Well, demanded the gentleman, have I not told you to sling your hook?

My dear sir, remonstrated the emissary, I have already slung it about twenty times, and have not had a single bite yet. Won't you oblige me, sir?

The gentleman gave him a quarter.

## Mothers Value This Oil.

Mothers who know how suddenly a group may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that there is no better preparation to be had for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

## How Failure Talks

John D. Rockefeller, Jr., discussing success with that homely wisdom which is his heritage from his father, said to a reporter:

The failure reads a wrong meaning, a meaning in accord with his nature, into the most helpful precepts.

Are you laying anything by for a rainy day? was the question that was put to a man on the high road to failure.

The man looked up from his newspaper, yawned and answered:

Yes, indeed—every fine day I put aside a lot of work.

## Her Habit

It did Jack no good to marry his stenographer, for she continued the habit of the office in her home.

When he starts to dictate she takes him down.

## SORE FROM ELBOWS TO FINGERS

ZAM-BUK WORKED A MIRACLE OF HEALING

Reverend Gentleman Fully Corroborates

Miss Kate L. Dolliver, of Caledonia, Queen's Co., N.S., says: "I must add my testimony to the value of Zam-Buk. Ulcers and sores broke out on my arm and although I tried to heal them by using various preparations, nothing seemed to do me any good. The sores spread until from fingers to elbow was one mass of ulceration."

"I had five different doctors, and faithfully carried out their instructions. I drank pint after pint of blood medicines, tried salve after salve and lotion after lotion; but it was of no avail."

"My father then took me thirty miles to see a well-known doctor. He photographed the arm and hand. This photograph was sent to a New York hospital to the specialist; but they sent word they could do nothing further for me, and I was in despair."

"One day a friend asked me if I had tried Zam-Buk. I said I had not, but I got a box right away. That first box did me more good than all the medicine I had tried up to that time, so I continued the treatment. Every box healed the sores more and more until, to make a long story short, Zam-Buk healed all the sores completely. Everybody in this place knows of my case, and that it is Zam-Buk alone which cured me."

Minister corroborates.—The Rev. W. B. M. Parker of Caledonia, Miss Dolliver's minister, writes: "This is to certify that the testimonial of Miss Dolliver is correct as far as my knowledge goes. I have known her for a year and a half and her cure effected by Zam-Buk is remarkable."

Wherever there is ulceration, blood-poison, sores, cold-cracks, abscesses, cuts, burns, bruises, or any skin injury or disease, there Zam-Buk should be applied. It is also a sure cure for piles. All druggists and stores sell at 50c. per box, or post free from Zam-Buk Co., Toronto, for price. Refuse cheap and harmful imitations and substitutes.

## Hard to Explain

Mr. Wedgwood Benn, M.P., tells this amusing incident of his life in Parliament. Once when his Party were particularly anxious to have a large attendance of Members at the House, after sitting all night, it was decided to send telegrams to those who were not in attendance, stating: "Awaiting you at the House."

Unfortunately, the telegrams were accidentally sent to several members who were present, with the result that upon their returning home and explaining to their wives what a terribly busy night they had had at the House, trouble ensued.

## HER HEARING RESTORED

Astonishing Deliverance of Woman Thought to be Hopelessly Deaf  
NEW YORK (Special Despatch).—Fully convinced that her hearing had been permanently restored after years of torture with head noises and almost total deafness, Mrs. B. C. Barry of 555 W. 170th St., N.Y. City, has now been persuaded to tell the story of her wonderful deliverance.

After having spent hundreds of dollars on mechanical devices, medicines and doctors' fees, she decided that this latest discovery, however simple and inexpensive, should be the last she would try before resigning herself to the hopelessness of permanent and total deafness. Those interested in Mrs. Barry's case and the hope it holds out for them, may write to her in confidence for full details, which she offers to send gratuitously.

Old Mr. Gotrox—No, sir, you cannot marry my daughter. The idea! Why, you're not the sort of young man I take to.

Young Mr. Tenawee—But you'll like me better after I've lived with you a while.

The cheapness of Mother Graves' Worm Exterminator puts it within touch of all, and it can be got at any druggist's.

There is no place like home, which appears to be the reason why some men spend most of their time elsewhere.

Minard's Liniment Cures Colds, Etc.

## Matching Things

Is this a half price restaurant?  
No.  
Where can I find one?  
I don't know. Why are you looking for one?  
Because I have only half an appetite.

## Dense Stupidity

Is that clock right? asked the visitor, who had already outstayed his welcome. His hostess yawned. Oh, no, she said. That's the clock we always call the Visitor.

The obdurate one sat down again. The Visitor? he remarked. What a curious name to give a clock.

His hostess ventured an explanation. You see, she cooed sweetly, we call it that because we can never make it go.

And even then he failed to see the point.

## The Dancing Season

The young lady was sitting by herself on a Chesterfield sofa. To her favorite admirer she said:

I thought you were a mind reader? I am, was the confident reply.

The young lady's eyes swept the sofa by her side. She said:

I don't believe it!

## THE GRAIN GROWERS' GRAIN CO., LTD.

WINNIPEG, CALGARY

EXECUTIVE  
T. A. Crerar, E. J. Fream, John Kennedy, William Moffat.

Manitoba—T. A. Crerar, John Kennedy, Wm. Moffat, R. McKensie, Saskatchewan—Geo. Langley, J. Maharg, E. W. Green, J. Morrison, Alberta—E. J. Fream.  
If you consign your grain to us it will be looked after in the best possible manner.  
OUR AIM  
To better the condition of the farmer and cut out the spread between the producer and the consumer.

## The Hall Mark

I am very fond of automobilizing. I didn't know your father kept a car.

He doesn't, but I never consent to be engaged to a man who hasn't a fine motor.

No man or woman should hobble painfully about because of corns, when so certain a relief is at hand as Holloway's Corn Cure.

## Didn't Want the Squeak

I don't like those shoes you sold me, said the lady customer.

What's the matter with em? asked the shoe dealer.

Why, they squeak.

Is that all? Well, isn't that enough? If I'd wanted something that would squeak I'd have spent a little more money and brought a phonograph.

## Minard's Liniment Cures Diphtheria.

Where does this car run to?  
I am a new conductor on this line and I am not certain myself.  
How can I find out?  
You might stay on the car and see.

## Theatrical

Yes, said the ex-criminal tragedian, at one time my company started on what promised to be a most profitable tour of the great Sahara Desert.

We were producing my "thrilling drama: 'The Remorseless River,' and of course had to carry the water for the river on the backs of camels. Well, sir, it would have amazed you to see the hit that show made with the Arabs. They'd ride for hundreds of miles to attend a performance.

Made money, eh?  
For a while. But one night we were to put the show on away out in the middle of the desert, and one of those wretched camels got thirty.

Just when the tank had been filled ready for the heroine's thrilling leap for life the brute stuck its head through the wires and drank the tank dry.

There we were, four hundred miles from water, and—  
But his emotion overcame him, and he had to leave the rest to our imagination.

## The Way It Goes

Only the brave deserve the fair.  
Is that so?  
It is.  
That may be, but notice that it is only the rich who can afford the fair.

## Refused Large Bribes by Nihilists to Wreck Royal Trains

Geneva.—Dominique Hof, who is aged 71, the czar's trusted and personal engine driver, died in the hospital at Olten, his birthplace. Hof had served as engine driver from St. Petersburg via Moscow to Odessa for 40 years, and was placed in charge of every train in which the royal family traversed Russia, and even on short trips. He could have retired long ago, but would not until forced by illness.

Hof was offered during his career large sums to wreck the royal express, but he always refused the large bribes. Some of them were made by the police to test his honesty.

Changes should reach this office not later than noon each Monday.

Call Office—Corner Gleichen Street and Fourth Avenue  
P.O. Box 15 W. PARK EVANS. Telephone No. 12  
Gleichen, Alberta, February 20, 1913

When times are good about one business out of a hundred fails, when times are bad the per cent rises to one and a quarter or one and a half out of a hundred. The remarkable thing is not the per cent that fail in adverse times, but the rather high per cent that fail when times are good. It is as if business cannot stand prosperity. Caution is thrown to the winds. Overstocking and generous credits are some of the factors that bring ruin, but the primal cause is the much-too-many businesses for the demands of trade. Bradstreet's report shows that for a twenty per cent. increase in population there is a thirty per cent increase in business concerns and this would be larger were it not for the tendency to consolidate small, thrifty concerns. As with humans, so with business—it is the little ones that die. Not one failure in fifty involves one hundred thousand dollars. But the disconcerting fact is that the aggregate losses of these little failures mount up especially in 1912, to a total that nearly equals the blackest year of hard times. Can it be that the margin of profit is lost in the high cost of management? Is there any truth in the rumor that consolidated business is subtly undermining the small concern? Certainly the cause of these failures is not to be found in the broad statement that business is dull. The facts are that business is good, that is, if bank clearings give the pulse of things. 23.6 per cent of increase for the beginning of the year shows a healthy tone.

Thirty years ago Alberta was treated as a ranching country, but with the generous offers of free land to settlers by the government, the province rapidly became a farming country with remarkable proof of its fertility. The first settlers invariably went into wheat exclusively, and the results justified their confidence in the climate. The "Alberta Red" wheat of Southern Alberta ranks first in the world, and yields of 60 bushels to the acre are not uncommon. The average yield over nine consecutive seasons was 21.27 bushels which is no mean average for an acreage of two and a half millions. Oats grow profusely anywhere in Alberta, but especially in the central part where yields of 115 bushels to the acre are by no means rare. While the standard weight of a bushel of oats, the Alberta product goes to 42 pounds, and the quality is of the very best. Barley is a heavy crop, often running to 75 bushels to the acre but usually going from 30 to 50 bushels. A fine quality of malting barley has been produced for many years in southern Alberta, and British malsters have a standing offer of 10 to 15 cents premium per bushel, on all two-rowed barley fit for malting, that is grown in Southern Alberta. With such handsome returns from agricultural work, it was only natural that the farmer devoted his attention towards grain raising neglecting the possibilities in stock. But as the farm began to yield returns and the time payments on machinery, etc., were all paid off, the small holder began to buy a few live stock. Those who looked ahead are now reaping the benefit of their foresight, as never before in the history of this province has the cost of cattle been so high.—Calgary Standard

Several have already related to the CALL their troubles in getting dutiable goods from the United States and other countries through the customs offices at Calgary and Medicine Hat and some of them are indeed most aggravating. What the Board of Trade wants is written statements signed by the complainants. The secretary or any of the committee will take these and the CALL has agreed to publish them, being convinced that it is high time that some effort was made to remedy the wrongs inflicted. It cannot be said that the fault lies with the officials entirely, but rather that this country has outgrown so distant a custom office. Gleichen is the centre now of a great population, most of whom are receiving presents and buying goods from their former homes in the United States, Great Britain, France, Germany and other countries, that must of necessity come through a custom office. In order to facilitate business and make this country one where these people can enjoy the advantages placed before them before coming to Canada it is necessary that they be convenient to a customs office.

## Received 'One Year.'

Last Friday morning Mort Cochrane was sentenced to one year's imprisonment at Calgary by Justice Carpenter, being charged with perjury. On January 11th, Cochrane was a witness in a wages case brought before J.E. Ostrander, J.P., in Gleichen. Before appearing in court he met some friends and indulged in champagne. When questioned in court if he had been drinking, he swore he had not and the J.P. had him locked up. Appearing the next day he again swore he had not been drinking and was committed for trial. A number of witnesses were summoned to Calgary with the above result. One or two witnesses were evidently too keen to help Cochrane out of his trouble and as the court appeared to think they were handling the truth rather recklessly, they were not allowed the usual court fees as witnesses. The result of this case it is hoped will be a warning to others here to be careful in giving their evidence in court and it may be said that of late there has been too many who seem to regard their oath lightly.

F. L. Parker, manager of the Revelstoke Sawmill Co., returned to Gleichen Sunday evening with his wife and little girl from Texas. Mr. Parker left here the latter part of December to visit his former home and bring his family to Gleichen to make this their home. He reports having enjoyed his vacation, and visited many friends in different states.

Mr. and Mrs. J. M. Telford have returned from spending a couple of months on the Pacific coast. Mr. Telford had intended visiting Mexico, where he has real estate interests, but learning of the promiscuous manner in which lead was being distributed there decided to return to Gleichen to farm a more healthy occupation than dodging lead in Mexico.

## Be A Booster

Do you know there's lots of people  
Sitting round in every town,  
Growling like a broody chicken,  
Knocking every good thing down?  
Don't you be that kind of grouch,  
'Cause they ain't no use on earth.  
You just be a booster rooster,  
Crow and boost for all your worth.

If your town needs boosting, boost'er.  
Don't hold back and wait to see  
If some other fellows' willing—  
Sall right in, the country's free.  
No one's got a mortgage on it,  
Its just yours as much as his,  
If your town is shy on boosters,  
You get in the boosting biz.

If things just don't seem to suit you,  
And the world seems kinder wrong,  
What's the matter with a boosting,  
Just to help the thing along  
'Cause if life should stop a goin'  
We'd be in a sorry plight,  
You just keep that horn a-blowing—  
Boost'er up with all your might.

If you know some fellow's failin'  
Just forget 'em, 'cause you know  
That same feller's got some good points  
Them's the ones you want to show,  
'Cast your loaves out on the waters,  
They'll come back", a saying true,  
Mebbe, too they'll come back 'battered'  
When some feller boosts for you.

## The Steer-Feeding Competition

Everyone connected with the  
steer feeding competition inaugurated  
by the Animal Husbandry  
branch of the Canadian Pacific Rail-  
way, Department of Natural Re-  
sources last fall, is enthusiastic over  
the prospective results of the contest.  
It will be remembered that the animal  
husbandry branch supplied farm-  
ers' sons in the irrigation block in  
the Bow Valley, with eight steers  
each. These steers are being fed by  
the contestants during the winter  
months and will be disposed of at  
the Calgary Spring stock show. The  
boys get the difference between the  
buying price of the feeders and the

selling price in the spring. Besides  
this they have a chance at \$250 in  
cash prizes.

Thirty-four boys entered the con-  
test and are each and everyone go-  
ing to make large profits on their  
winter's work. Inspectors from the  
animal husbandry branch have just  
completed visits to all the partici-  
pants and declare that in every case  
the animals are in exceptionally  
fine condition. It is an important  
fact that though the boys had their  
own choice of feeding methods they  
are all feeding in the open and the  
way the steers are putting on weight  
shows the wisdom of winter feeding  
out-of-doors. Arrangements are be-  
ing made for showing the various  
lots in corrals at the Spring Show.

The results of this competition,  
which is just a small beginning to-  
ward widespread competitions will  
be two-fold. In the first-place the  
contestants should make enough  
from their winter's work to go into  
feeding operations on a small scale  
with their own capital. But the  
more far-reaching result will be in  
the actual demonstration of the pro-  
fits that winter-feeding returns. All  
the boys are keeping full accounts  
and the final results should be in-  
teresting to every farmer in West-  
ern Canada.

An anarchistic St. Louis preacher  
says that a man who kisses a girl  
should be shot. They do usually  
receive a heart wound.

The modern woman who spends  
thousands of dollars yearly on  
wearing apparel isn't much like the  
first member of her sex, who didn't  
care a fig leaf for clothing.

A homesteader near Queenstown,  
woke up one morning recently and  
found that he had grown completely  
baldheaded during the night. Gleichen  
scientists are puzzled to  
account for the occurrence but it is  
probable that his hair and scalp  
had a falling out.

## CUSTOMS OFFICE PETITION

All Wanting a Customs Office at Gleichen Sign This

By the request of the Gleichen and District Board of Trade below  
a copy of the petition to be sent to the Minister of Customs is produced  
and the Board asks all interested to sign below and return to the CALL  
office:

We, the undersigned citizens of Gleichen, and residents in the  
district tributary thereto, do humbly petition the Hon. John Dowsley  
Ried, M. D. Minister of Customs of the Dominion of Canada, to estab-  
lish a customs office at the town of Gleichen, in the Province of Alberta  
for the following reasons:—

WE are so distantly situated from the present Customs Clearing  
Office, the delay in receiving merchandise causes great loss, especially in  
the case of perishable goods.

AND WHEREAS, we occupy a most central position, being situ-  
ated on the main line of the Canadian Pacific Railway, and having tribu-  
tary to us not only the district served by the C. P. R. branch lines  
from Langdon to Acme, and Irricana to Bassano, but densely settled  
districts as far as sixty miles south, as well as being centrally located to  
handle the business of all towns east of Calgary and west of Medicine  
Hat.

GLEICHEN is the distributing point for a great many rural Post  
Offices, and the majority of the population is comprised of British and  
American settlers, which substantiates the fact that the quantity of mer-  
chandise coming from these countries, warrants the location of a customs  
office in this town.

THEREFORE, we your petitioners, shall continue to humbly  
pray that our request will be granted in the near future.

## AUTOMOBILES

With the advent of 1913 many new cars  
are noted on the Canadian markets. Both  
new and old show many refinements  
and improvements over 1912.

McLAUGHLIN-BUICK builders have  
made good their claim to a country built  
car.

A car built for our none-to-good Canadian  
roads.

A car fitted with all the latest improve-  
ments.

The prices are moderate.  
Careful comparison is invited with the  
higher priced cars and especially with cheap  
cars whose makers base their extrava-  
gant claims of present worth on what their  
cars have not, instead of what they have.

We also have some excellent values in rebuilt cars repainted  
and overhauled.

Call or write for price lists.

**All Gas**

Laura, said that young lady's mother it seems to me that you had the gas turned down rather low while young Smarmy was here last evening.

It was solely for economy, mamma, answered the maiden.

There is no one trying to beat the gas company, my daughter. I have noticed that the shutting off of the gas is always followed by a corresponding increase of pressure.

Well, that lessens the waist, doesn't it, mamma, dear? replied the artless girl. And her fond parent could find no answer.

Paris.—Charles Pruvost, a miner, who won the Legion of Honor by his heroism at the time of the Courrières mine disaster in which 1520 lives were lost, died at the age of 50 years. It may be recalled that for twenty years Pruvost guided a group of twelve survivors through the galleries of the devastated mine, after the explosion. Afterward he abandoned mining, and kept a cafe near the pit head.

## TWO WOMEN TESTIFY

What Lydia E. Pinkham's Vegetable Compound Did For Their Health—Their own Statements Follow.

Halliburton, P.E.I.—"I had a doctor examine me and he said I had falling of the womb, so I have been taking Lydia E. Pinkham's Vegetable Compound and it has done me a lot of good. All the bearing-down pains have vanished. I have gained ten pounds in weight, the discharge is all gone, and I feel better than I have for a long time. I think any woman is foolish to suffer as I did for the sake of a few dollars."

"You can use my letter as a testimonial. It may encourage other poor women who suffer as I did to use your Vegetable Compound."—Mrs. GEO. COLLETT, Halliburton, Lot 7, P.E.I.

**Read What This Woman Says:**

New Moorefield, Ohio.—"I take great pleasure in thanking you for what your Vegetable Compound has done for me. I had bearing down pains, was dizzy and weak, had pains in lower back and could not be upon my feet long enough to get a meal. As long as I laid on my back I would feel better, but when I would get up those bearing down pains would come back, and the doctor said I had female trouble. Lydia E. Pinkham's Vegetable Compound was the only medicine that helped me and I have been growing stronger ever since I commenced to take it. I hope it will help other suffering women as it has me. You can use this letter."—Mrs. CASSIM LLOYD, New Moorefield, Clark Co., Ohio.

W. N. U. 222

## BOY FINDS PEARL-NECKLACE

Does Not Think Much of it and Soon Forgets Such a Trivial Affair

It is reported that Baroness de Forest, who arrived at Wengen, from London lately for the sports, has just escaped a very expensive holiday. While enjoying winter sports she lost a necklace valued at more than \$25,000 in the snow and there was little hope of finding it until the snows melted.

The police, however, were informed and notices issued, but without result, and for a good reason. The valuable jewel had been picked up by a little Swiss boy, who did not think

BARONESS DE FOREST

much of it, and placing it in his pocket among sweets and bits of string, soon forgot the affair.

It was two days later, when the boy's mother turned out her hopeful's rather dirty pockets that she discovered the jewel and took it to the police who handed it over to its owner.

Baroness de Forest was greatly delighted, as she had lost all hope of recovering the necklace, and the bad little boy who brought luck to his parents, received a large reward—as well as a scolding from his mother.

Miller's Worm Powders act so thoroughly that stomachic and intestinal worms are literally ground up and passed from the child without being noticed and without inconvenience to the sufferer. They are painless and perfect in action, and at all times will be found a healthy medicine, strengthening the infantile stomach and maintaining it in vigorous operation, so that, besides being an effective vermifuge, they are tonic and health-giving in their habits.

### Good for the Cafe

The proprietor of the Cafe Edelweiss was faced with ruin. Somehow he had failed to hit the taste of the citizens of the little Bavarian town in which he carried on business, and he was at his wit's end to find a device for attracting the fickle public. Suddenly he hit on a brilliant idea. He inserted two advertisements in the local newspaper. One ran:—

Young men with large income desires to make the acquaintance of a young lady with a view to marriage. Money a matter of secondary importance.

The other ran:

Young lady with about 50,000 marks (later, more) wishes to marry a young man. A gentleman with good character, even if he is without means, will find an ideal home.

These announcements brought dozens of replies daily and, writing on behalf of the imaginary young man and the rich and also imaginary young lady, the proprietor of the Edelweiss made a rendezvous with all applicants in very naturally, his cafe.

The establishment nummed with life for a few days until somebody smelt a rat, and the enterprising proprietor was forced to explain his method of filling it before the local magistrate.

### ROTHCHILD BETROTHAL

Member of English Branch of Family to Take a Wife

Paris.—James de Rothschild, nephew of Lord Rothschild, is engaged to Miss Dorothy Pinto, daughter of Mr. and Mrs. Eugene Pinto, of London. The marriage is expected to take place shortly.

The owner of a racing stable in England, James de Rothschild is almost equally well known on the French turf, where his colors are frequently seen. He is a keen follower of the hounds, an experienced art collector and the author of a volume dealing with the period of Queen Elizabeth as represented by Shakespeare.

James de Rothschild's only sister married the Baron von Goldsmidt-Rothschild, attache at the German embassy in London.

I wish you'd get rid of that absolutely worthless puddle.

Absolutely worthless? That's what I said! Absolutely—absolutely worthless! What does it do that makes it good for anything?

I was thinking of what it doesn't do!

Oh-h, what it doesn't do! Yes. It doesn't chew tobacco, smoke a pipe, fight booze or use profane language.

### They Took Wine

Waiter, in city restaurant, to country groom: Will you have wine, sir?

Country Groom—Well, I dunno; I hadn't thought of wine. To Bride—What d'ye say to some wine, Mary?

Country Bride (shyly)—I don't mind John.

Country Groom—All right, it's a go. To waiter—Yes, mister, bring us two glasses of elderberry.

## LITTLE VICTIMS OF ST. VITUS DANCE

It is Most Common Among Children of the School Age.

If your child—whether boy or girl—is fidgety, emotional and awkward, you should watch it carefully as it may develop St. Vitus dance. Frequently children cannot keep still, they move with strange actions, their limbs jerk and their features twitch nervously. Speech is confused and the whole muscular system not under control. These are among the symptoms of St. Vitus dance, a trouble that afflicts growing girls and boys, most frequently during the school age. Dr. Williams' Pink Pills are such a splendid nerve-tonic that they have cured the worst cases of St. Vitus dance. They do this because the new, rich blood they make feeds and strengthens the starved nerves, thus throwing off the disease. Here is an example. Mrs. L. L. Gifford, Westover, Ont., says: "For over two years my little girl, Constance, was a sufferer from St. Vitus dance. She was frightened badly by a dog, which seemed to bring on the trouble, and notwithstanding all we did for her it seemed to be growing worse. She grew so bad that she could not feed herself and her speech was so badly affected that we could scarcely understand her. The twitching and jerking of her limbs was pitiable. At this juncture we began giving her Dr. Williams' Pink Pills, and to our great joy they have completely cured her, and she is now as healthy a child as you can find."

Dr. Williams' Pink Pills are sold by all medicine dealers or sent by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

Mary, Mary, cried a shocked mother, noticing her little daughter feeding her pet dog at the table, and with her own spoon. What are you thinking of to feed Fido from the spoon you are using yourself?

The child looked up, innocently smiling. Oh, mother, dear, he doesn't mind a bit.

Mistress—Cook tells me, Mary, that you wish to go out with a friend to-night. Is it urgent?

Mary—Oh, no, ma'am, 'tisn't 'er gent—it's my gent.

There was a terrific explosion off to the southeast of the hill, and General Spinnachitov turned pale as a ghost. By St. Ikon! he cried, they have dynamited the King's Own Fusiliers! No General, replied his chief aide-de-camp, looking at the same through his field-glasses. It is only the moving picture people taking a flashlight of the Royal Scullery Guards in a football scrimmage.

### The Beach Girl

She seems to be something of a flirt.

I should say she does. What is her specialty? Learning to swim.

### A Cheerful View

There's this old hat of the master's, Mary. Do you think the man would give us anything for it? Law, yes, m'm, there's many a poor man as would be glad to go to his wife's funeral in a hat like that.

### Leprosy in England

London.—John Burns has received notice of a question from Mr. Newman, M.P., asking whether any regulations are in existence whereby persons suffering from leprosy in this country can be compulsorily segregated and kept under observation, and whether he is aware that there are in London several cases of leprosy under treatment.

What is your name, little girl? Mary. And what is your last name? I don't know. You see, mamma hasn't got back from Reno yet.

### AS TO FLAVOUR

Found Her Favorite Again

A bright young lady tells how she came to be acutely sensitive as to the taste of coffee:

"My health had been very poor for several years," she says. "I loved coffee and drank it for breakfast, but only learned by accident, as it were, that it was the cause of the constant, dreadful headaches from which I suffered every day, and of the nervousness that drove sleep from my pillow and so deranged my stomach that everything I ate gave me acute pain" (Tea is just as injurious, because it contains caffeine, the same drug found in coffee).

"My condition finally got so serious that I was advised by my doctor to go to a hospital. There they gave me what I supposed was coffee, and I thought it was the best I ever drank, but I have since learned it was Postum. I gained rapidly and came home in four weeks."

"Somehow the coffee we used at home didn't taste right when I got back. I tried various kinds, but none tasted as good as that I drank in the hospital. I have drunk it ever since, and eat Grape-Nuts for my breakfast. I have no more headaches, and feel better than I have for years." Name given upon request.

Read the famous little book, "The Road to Wellville," in pkgs. "There's a reason."

Postum now comes in concentrated, powder form, called Instant Postum. It is prepared by stirring a level teaspoonful in a cup of hot water, adding sugar to taste, and enough cream to bring the color to golden brown.

Instant Postum is convenient; there's no waste; and the flavor is always uniform. Sold by grocers—45¢ to 50¢ per tin 30c. 90¢ to 100¢ per tin 50c.

A 5-cent trial tin mailed for grocer's name and 2-cent stamp for postage. Canadian Postum Cereal Co., Ltd., Windsor, Ont.

## Don't Persecute your Bowels

Cut out cathartics and purgatives. They are brutal-harsh-unnecessary. Try CARTER'S LITTLE LIVER PILLS

Purely vegetable. Act gently on the liver, eliminate bile, and soothe the delicate membrane of the bowels.

Cure Constipation, Biliousness, Sick Headache and Indigestion, as millions know. Small Pill, Small Dose, Small Price.

Genuine must bear Signature

Even Professional Dyers can't equal my Perfect Results

**DIYOLA**

ONE DYE—ALL KINDS OF GOODS

It's the CLEANEST, SIMPLEST, and BEST HOME DYE, one can buy. Why don't you even have to know what KIND of Cloth your Goods are made of.—So Mistakes are Impossible. Send for Free Color Card, Story Booklet, and Booklet giving results of Dyeing over other colors. THE JOHNSON-RICHARDSON CO., Limited, Montreal, Canada.

When your order comes from the grocer's see that he has sent you WINDSOR TABLE SALT. Why should you bother with salt that cakes and sticks, when you can get WINDSOR SALT?

Windsor Salt is all salt—absolutely pure clean crystal—can be every grain a perfect crystal. It costs no more.

**WINDSOR TABLE SALT**

### Warned Off

A foreign-looking gentleman was walking in the Johannesburg Zoo not so very long ago and read the notice: Bird-nesting is strictly forbidden. How cruel you are in Africa, he said to his friend. Why, even the birds are not allowed to make their nests in your public Zoo and Gardens.

Nangle—I hear there was a disturbance at the meeting last night.

Flummery—Ye heard wrong, thin; for when McGowan hit the chairman in the eye we threw him out o' the windy an' that stopped all trouble. Oh, no; everything was harmonious an' quiet.

## Unable to Work for 14 Months

Complete Nervous Breakdown Left Mr. Black an Invalid—Cured by Dr. Chase's Nerve Food.

Mr. Henry Black.

What a helpless mass of flesh and bone the human body is, once the nerves become exhausted. Extreme weakness comes over you, and you lose control of the limbs. The next step is paralysis.

You will be fortunate if, like Mr. Black, you get the building-up process in action before it is forever too late. By forming new, rich blood Dr. Chase's Nerve Food carries new vigor and energy to every organ and every member of the human body.

Mr. Henry Black, 81 St. Catherine street east, Montreal, Que., writes: "The wonderful results I obtained from the use of Dr. Chase's Nerve Food constrain me to write this letter in order that others who suffer from nervous exhaustion and weakness may use this medicine with equally satisfactory results. As the result of overwork I became completely exhausted, and was unable to work for fourteen months. As I am the father of a family, these were sad days for me, but after I had used six boxes of Dr. Chase's Nerve Food I had improved so greatly that I continued the treatment until I was completely restored to health and strength. I now work twelve to fifteen hours a day, and keep in excellent health."

Dr. Chase's Nerve Food, 50 cents a box, all dealers, or Edmondson, Bates & Co., Limited, Toronto.

## MADAM YOU CAN BE SAVED

## FROM ALL WASHDAY DRUDGERY

COUPON BELOW SAVES YOU \$2.00 IF YOU USE THE I. X. L. VACUUM WASHER

Price \$3.50

## For the Following Reasons

- 1—It is compressed air that does the work.
- 2—You can wash a tub of clothes in THREE minutes.
- 3—COMPRESSED AIR and SUCTION are the latest known science for perfect cleaning.
- 4—There is no wear or tear on the clothes.
- 5—It eliminates all the hard work of washing.
- 6—You can rinse or blue a tub of clothes in 30 SECONDS.
- 7—One hour's work will do any ordinary family washing.
- 8—It will last for years.
- 9—Anything that can be cleaned by soap or water or gasoline can be cleansed perfectly without breaking a thread.
- 10—THREE minutes in the suds, TWO minutes in the boiler (if you boil your clothes), 30 SECONDS in the rinse water and 30 SECONDS in the blueing water, will wash a tub of white clothes.
- 11—Lace Curtains, Bed Comforts, Fancy Shirt Waists, Wollen Blankets, Overalls and even Horse Blankets can be washed perfectly without any wear or tear on the goods.
- 12—It forces the water through the fabric.
- 13—The finest fabrics can be washed in the same tub with ordinary white clothes with no possible injury.
- 14—The work that takes from 40 minutes to one hour to do on a rubbing board can be done in THREE minutes without any hard work.
- 15—You can use the machine in the boiler, thereby forcing the steam through the clothes, which bleaches and whitens them.
- 16—It only costs \$3.50 and will save at least \$50.00 per year in your home by not wearing out your clothes.
- 17—The Washing Machine only weighs 1 1/4 pounds.
- 18—You can do all your DRY CLEANING with this machine. You simply use gasoline in place of water.
- 19—Because the I.X.L. Vacuum Washer is sold under a money back guarantee to wash quicker and better than any washing machine made irrespective of price and construction.
- 20—Because if you use the coupon below, you can get one of these wonderful washers for \$1.50.

HOW TO SAVE \$2.00 ON THIS VACUUM WASHER USE THE COUPON BELOW GUARANTEED

To wash a Tub of clothes perfectly in 3 minutes Not only washes, but rinses and blues No rubbing or batting. Absolutely no Friction. No Severe Exertion Required

A child can do an ordinary washing and have it ready for the line in one hour.

SENT UNDER A MONEY-BACK GUARANTEE ALL CHARGES PREPAID

Send For One, You Run No Risk DO IT NOW

YOU WILL NEVER REGRET IT YOU WILL BE DELIGHTED

DEPARTMENT 3 COUPON

Present or mail this Coupon and \$1.50 to Dominion Utilities Mfg. Co., Ltd., 482 1/2 Main Street, Winnipeg, Man., and you will receive one I.X.L. VACUUM WASHER.

All charges prepaid anywhere in Canada on condition that your money is to be refunded if the Washer does not do all that is claimed.

**All Off Now**

He (nervously)—Er—er—Margaret—or—there's something been trembling on my lips for the last two months.

She—Yes, so I see. Why don't you shave it off?

Belgrade.—Charles Cartell, an English medical student, who volunteered for service with the British Red Cross mission in Serbia, died at Uksub after a short illness which was contracted while nursing ill and wounded soldiers. The hospital detachments of the Serbian army took charge of the funeral.

It is only by standing for everything from an ice cream soda to a diamond ring that bachelor uncles justify their existence.

A man's view of the next panic depends largely upon whether he has just inherited a large fortune or is out of a job.

## U. S. MAY INTERVENE

NOW MAKING PREPARATIONS TO  
II VADE MEXICO

President Taft Wants Congress to Share the Responsibility for Intervention—Six Dreadnoughts are in Mexican Waters—Ten Other Fighting Ships in Readiness.

Washington.—President Taft and his cabinet are in accord that Congress shall share the responsibility for any intervention in Mexico.

Conferences between the President and his advisors ended with the understanding that should conditions in Mexico City become so much worse as to demand the landing of American troops, Mr. Taft will lay before both Houses of Congress the facts in a special message. Every preliminary was arranged for the action which might follow such a course. Thirty-five thousand men, of the army, navy and marine corps, were put in readiness for movement. The first brigade of the first army division just created, three thousand men in all, and the nucleus of an expeditionary force of 15,000 was put on marching orders ready to entrain for Newport News, Va., where army transports wait under steam.

Between 2,500 and 3,000 marines of the Atlantic battleship fleet and at the Guantanamo naval station, were prepared for immediate movement to Vera Cruz, where they might be kept aboard ship ready for landing to blaze an avenue of escape to Mexico City for foreigners, as was done by the great powers at Peking.

Six Dreadnoughts with approximately 4,000 jacks and officers are now rushing under full steam for Mexican ports—four on the Atlantic and two on the Pacific. Ten other crack fighting ships of the Atlantic battleship fleet, swinging at anchor seventy hours off Guantanamo are ready for sea. They have approximately 9,000 officers and men.

Within call to supplement this force are the cruiser Denver, enroute to Acapulco, Salvador; transport Buffalo, at Corinto, Nicaragua; cruiser Des Moines, en route to Bluefields, Nicaragua, and due there Saturday; gunboat Nashville, en route to Honduras.

It is the feeling of the administration that these plans are all that can be done at this time, and that a sufficient number of warships have been despatched, not only to observe developments, but to practically create neutral zones at ports where they lie, in which Americans and other foreigners in Mexico may find safety.

It has been suggested in some centers that to land troops in Mexico would be such an act of war as can be justified only by a resolution of Congress. Many military officers fail to see any distinction between such landing of troops on foreign soil in case of anarchy, and the employment of marines for the same purpose, as was done in Nicaragua recently.

To meet the constitutional objection in case the transports were sent to Vera Cruz, it is understood that the commanding officers would be instructed not to land troops except upon Congressional authority.

Their presence on the coast, it is felt, would doubtless have a strong moral effect upon the contending factions in Mexico, and more than a week's time would be saved in placing the soldiers just where they would be needed in case danger to foreign lives and property should become more imminent.

## TURKEY WOULD HAVE PEACE

Not Likely That Direct Action Will be taken Until After Decisive Battle

London.—It is becoming increasingly evident that Turkey is taking steps to resume the peace negotiations, although it is possible that no direct action will be taken until some decisive results in the fighting in the Gallipoli peninsula have been achieved.

It is understood that Tewfik Pasha, the Turkish ambassador, has had several interviews with the British foreign secretary recently, and that Rechad Pasha, head of the first peace delegation, has been ordered to remain in London. Hakkı Pasha will consult with Silma Pasha and Count Von Berchtold, the Austrian foreign minister at Vienna, before coming to London.

Another effort on the part of the Porte to raise a small loan in Paris has failed, owing to the refusal of the French government to open the Paris market. Official accounts of the fighting, issued at Sofia and Constantinople, are conflicting, but it seems to be certain that the Turkish arms have again met serious reverses, although Adrianople and Scutari are still holding out.

It is reported that this matter was discussed at a meeting of the ambassadors at the foreign office, but that it was decided that the powers would be unable to undertake the role because the allies had declared that in the future they would negotiate peace only on the battlefield.

## Rough Voyage

Levleburg.—The Russian steamship Virma arrived in port from Lisbon with 1060 passengers, bound for New York, six days overdue. They experienced heavy weather crossing the Atlantic and run short of coal. After coaling, she will proceed to her destination.

## U. S. Naval Programme

Washington.—Two battleships in this year's naval appropriation were determined upon by the House Naval Affairs Committee by a vote of fourteen to seven.

Six destroyers, four submarines, one supply ship, and one transport also will be provided.

Calcutta.—In a recent return issued by the British Indian government 302,425 girls under 5 years of age, are described as wives, and 17,703 as widows.

## C. N. NEW LINES

Programme of Work for Prairie as Previously Announced in Province

Toronto.—The announcement of the Canadian Northern Railway's construction programme for 1913 was made recently.

Hundreds of miles of new lines are to be constructed, and as many men as the C.N.R. are able to secure will be given work on the construction.

In Manitoba a stretch of five hundred miles beginning five miles east of Portage and extending to near Steuburn, will be the main development. The Inwood-Fisher River route will be graded forty miles. The construction in east Saskatchewan will include a line from Sturges for a distance of 44 miles towards Hudson Bay. A like distance of line will be constructed on the Gravelburg branch. The line through Gravelburg toward Swift Current will have more than fifty miles added to the present route.

The McRorie-Outlook line will be extended nearly 20 miles east of that point and about twenty miles west of it.

The Regina-Moose Jaw line, and the Yorkton branch are also included in the programme.

Alberta is to see many of the Alberta lines constructed this summer. The Camrose southwest branch is the principal one, and the sixty miles of new line on this will be undertaken on the Edmonton-Calgary line. The line south of McLeod, at Pincher Creek, will be graded for about forty miles and work on the Calgary-Lethbridge branch will also be undertaken. The linking up of the Brudenell and Vermilion connection and the tapping of the Brazeau coal fields are to be rushed. The Peace River branch is also to have a start made on it. The Calgary-Saskatoon branch is now practically completed, and service will be established on this line within a few months.

Port Nelson Terminal for Line to Bay  
Ottawa.—H. P. Hazen, the government harbor expert, who has been surveying the approaches and the harbors at Port Nelson and Port Churchill, with a view to definite selection of the terminal for the Hudson Bay Railway, which is now being built north and eastward from Le Pas, arrived in Ottawa recently.

The question of the site of the terminal will be settled at once, said Hon. Frank Cochrane. It is very important that we should definitely decide at once upon which port will become the terminal of the railway that is now under construction. It is a very difficult problem, as there is much to be said for and against both Port Churchill and Port Nelson.

While there can be no official statement until after Mr. Hazen makes his report to the minister, and it has been given due consideration it is generally believed that Port Nelson will be decided upon, although there are serious difficulties from an engineering standpoint.

Port Nelson is closer to the wheat fields; the railway would run through a better country, and the line would have lower grades. Port Churchill undoubtedly has the best harbor, but the surrounding country is barren land, and the road for some 75 miles would have to run through muskeg, and it is feared that it would be almost impossible to get a good road bed.

Port Nelson also has an ideal location for a townsite, railway terminal and docks, while the character of the country at Churchill is such that it would be difficult to lay out a town and terminals.

## IMMIGRATION PROSPECTS

Never Better, Says Mr. J. S. Dennis, of the C. P. R.

Montreal.—Immigration prospects from Great Britain and Northern Europe were never better, said Mr. J. S. Dennis, assistant to the president of the C. P. R., who arrived here from London. The liberal policy of disposing of the remainder of the company's land grant for the purposes of colonization has attracted the attention of the British and Continental papers.

It is not possible to obtain from Great Britain, he said, many agricultural colonists because that class is limited. Less than thirteen per cent. of the population of Great Britain and Ireland are engaged in agriculture, and if colonization is to progress a large portion of immigrants must be obtained from Northern Europe and the United States.

## Signed by the Virgin Queen

London.—An old deed of indenture, signed by Queen Elizabeth, is one of the interesting documents to be sold shortly by Messrs. Sotheby. The deed was signed by the Queen on completing a sale of property with the Earl of Leicester. The earl had just been appointed commander-in-chief of the army destined for the Low Countries. The property conveyed was the lordship and lordships of Denbigh and Denbigh Land, and the sum at which it passed was \$88,000, of lawful English money in hand paid by our said Sovereign Lady. The date on the document is December 2, 1555, and a beautiful example of the Great Seal is attached to it.

## Free Canal Tolls

Washington.—Repeal of the free passage provisions of the Panama Canal Bill is the wisest and best way out of a very embarrassing and injurious situation, urged Senator Root before the Senate Committee on Inter-oceanic Canals in support of his bill for a repeal of the provisions which exempt American Coastwise shipping from the payment of tolls.

## Naming Senators

Ottawa.—It was stated that when the bill increasing the representation of the senate in the west becomes law the two additional seats in the upper house to which Alberta would be entitled will be filled by the appointment of Dr. Brett, of Banff, a former speaker of the Northwest Territorial Assembly, and Richard Secord, a prominent Conservative of Edmonton, who was on one occasion a candidate for parliamentary honors.

## A NATIONAL APPEAL

WORLD RINGS WITH PRAISE FOR  
ANTARCTIC HEROES

Movement Has Begun for a National Memorial and to Provide for Bereaved Families of Dead Explorers—Admiralty Regards Loss as if Heroes Had Been Killed in Action

London.—The committee of the British Antarctic expedition will issue a national appeal for a fund to provide for the relatives of the dead explorers. Among those signing the appeal is Lord Strathcona.

The Admiralty issued an official expression of its profound regret at the loss of the heroic officers, saying:—

The circumstances under which Captain Scott and his comrades lost their lives prove with what constancy and resolution they carried out their duty for which they volunteered. The Lords and Commissioners of the Admiralty consider that their loss should be regarded as if they had been killed in action, and their story will long be remembered with honor by the navy.

Nothing has been decided as to what steps the government or the Admiralty will take, but full confidence is felt that ample provision will be made.

The lord mayor of London has asked the first lord of the admiralty, Mr. Churchill, whether he will open a fund and Mr. Churchill has not replied, but the lord mayor says: If it should be found necessary to open a fund, the Mansion House will rise worthily to an occasion which affects us all.

The Daily Telegraph, which has opened a fund for a national memorial to Captain Scott and his dead comrades, says:—

We owe it to ourselves and to posterity to place on record in some worthy, substantial and enduring form our sense of the glory of these men and of the undying glory they have shed on the British name.

Among the first subscribers to this fund are: Rear Admiral Peary and Baron Rothschild.

The London papers publish tributes from the European sovereigns and explorers and scientists of all nationalities to the heroic devotion of the explorers, and expressing sympathy for their families. These tributes are especially numerous from America. The general feeling expressed is that no honor is too great to be rendered to the dead heroes, and that, therefore whatever is done by the government should not interfere with the spontaneous generosity of the public in behalf of the wives and families of those who sacrificed themselves in the nation's honor and service.

## CAPTAIN SCOTT'S DAILY RECORD

Story of Trip to be Published—Remainder of Party Are Well

Christchurch.—The Terra Nova brought every written record of the southern party, including the private diaries which will be handed to the relatives of the dead explorers.

Captain Scott kept a daily record until March 24, and spent the last day in writing his message to the public. The bodies could have been brought back, according to Commander Evans, but all agreed to leave them in their white mantle, where they had worked and died.

Commander Evans is not inclined to speak of the tragic side of the expedition and has forbidden his fellow-officers to speak. He will complete Captain Scott's story for publication. All on board the Terra Nova look to be in good health and bear no outward signs of the hardships they have undergone.

## Did Not Leave Vatican

Rome.—The Vatican denies absolutely the report published in America that the Pope left the Vatican to visit the home of his dead sister. The authorities at the Vatican add that such action on the part of the Pope would be an utter contradiction of the Pontifical character, as he considers it his sacred duty to remain within the Vatican walls.

MAJOR LEWIN

## BRIDE AND BRIDEGROOM-ELECT

Particular interest attaches to the engagement of Lady Edwina Roberts (second daughter of Lord Roberts) and Major Lewin. In view of the fact that the title may pass to Lady Edwina and her eldest son if she should have one. Lord Roberts' last surviving son, the Hon. Frederick Roberts, died of his wounds at Colenso in 1899, and after his death was awarded the Victoria Cross for bravery in that battle. When the earldom was conferred on Lord Roberts, a special remainder was granted, in default of male issue, to his elder daughter and her heirs male, and in default of such issue to his younger daughter and her heirs male. His elder daughter, Lady Alleen Mary Roberts, is unmarried. Lady Edwina was born in 1875. Her fiancé Major Henry Frederick Elliott Lewin, who is in the Royal Field Artillery, is the son of

IMMORALITY CAUSE OF MUCH  
POVERTYSome Interesting Evidence Given Before  
Old Age Pensions Committee

Ottawa.—Causes of poverty and dependency in Canada were dealt with in an interesting manner by Dr. W. R. Bruce Smith, Ontario Inspector of public charity, giving evidence before the Old Age Pensions commission. He declared immorality as one of the most prolific causes of poverty and divided the reasons for people becoming dependent on others by the following percentages:—

Intemperance, 21; inefficiency, often congenital, 22; improvidence, 16; shiftlessness, 15; immorality, 13; stupidity, 7; ignorance, 5. In Ontario, he pointed out there are 15,000 in houses of refuge, and 7,000 receiving municipal aid and otherwise helped.

Dr. Bruce Smith advocated the segregation of all feeble minded women during the maternity period in industrial refuges and the application of reformatory methods to first offenders. He believed that a man or woman convicted three times under the criminal code should have custodial care for the rest of their lives, not behind prison bars, but with outdoor work where they would be self-supporting.

He favored in Canada an old pension system similar to that which obtains in New Zealand, but with some amendments. The amount he suggested would be \$120 a year, payable monthly and diminished in proportion to other income or the possession of not unencumbered values of property over \$500. By this means a large number would be kept out of houses of refuge.

Before the committee rose Mr. Stubbs, president of the United Miners of Alberta, gave evidence in favor of the inauguration in Canada of a system of old age pension. He thought it would result in great benefit to the working classes generally and to none would it appeal more than to the workers in the mines.

Mr. Stubbs gave the committee some interesting information as to the conditions under which work is done in the mines of the West.

## THE MARKET REPORT

Weekly Grain Letter Supplied by Thompson, Sons & Co., Grain Merchants, Winnipeg.

Winnipeg, Feb. 11.—No new feature has cropped up to disturb the wheat market during the past week, if anything the volume of trading has been smaller and fluctuations narrower. A little strength at times appeared owing to the European political situation. There has also been complaints of dry weather in India, but with scarcely any change in Liverpool cables. News of this kind had little effect and any advances made were soon lost. Closing prices for the week show the Winnipeg market unchanged, the United States markets slightly lower. At the moment it may be said the wheat market is dominated by nothing in particular. The trade has no positive opinions as to the future, and is waiting for some thing to turn up which may inject a ray of life into the situation. It seems to be certain that with a dull or indifferent domestic and export demand prices are not likely to rise naturally to a much higher level, and on the other hand, with Europe still a good buyer of wheat in the international market it does not seem probable that there is a possibility of establishing much lower prices. The market is neither weak nor strong; it isn't anything but out of such a condition there always comes a good move only there are no clear signs of the direction. With the exception of India where continued dry weather is causing anxiety, crop conditions are favorable the world over. The recent cold weather has not caused damage to the winter wheat in the United States as snow covers most of the principal producing States. Nebraska is an exception but no complaints have come from there. World's shipments again show a heavy increase over a year ago, being 14,800,000 bushels compared with 15,728,000 bushels last week and 8,208,000 bushels last year. The Argentine shipped 5,

168,000 bushels; America 4,824,000 bushels, and Australia 2,024,000 bushels. The amount on ocean passage showed an increase of 4,884,000 bushels, making the total now 42,588,000 bushels, against 30,632,000 bushels. The decrease of 1,146,000 bushels in the world's visible according to Bradstreet's this week is small when compared with the decrease of last year, 7,789,000 bushels. The total world's visible is now 202,609,000 bushels compared to 190,933,000 bushels last year.

The Winnipeg market has been steady and closing cash prices show a slight advance. There is a healthy demand for both contract and commercial grades. Rejected and smutty wheat have had a much better enquiry and values are nearly 2c. higher. Receipts are beginning to run considerably less than last year but the connection at the Port William and Port Arthur terminals shows no improvement. Today's cash prices are 1 Northern, 84c; 2 Nor., 81½c; 3 Nor., 78½c; No. 4, 73½c; No. 5, 68½c; No. 6, 62½c; feed, 53c; No. 1 A.R.W., 85c; No. 2 C.R.W., 82½c; No. 3 A.R.W., 79½c. Futures closed May, 88½c; July, 89½c.

Oats.—The demand for oats is steady and while prices on the higher grades are unchanged the feed grades show ¼ to ½c. advance. Today's prices are No. 2 C.W., 32½c; 3 C.W., 30c; extra 1 feed, 31½c; 1 feed 30½c., 2 feed, 27½c. Futures closed May, 36¼c; July, 37½c.

Barley.—With the exception of No. 4 which has advanced a full cent, barley prices are unchanged and trade has been quiet. Today's prices are No. 3, 47½c; No. 4, 45½c; Rejected, 40½c; feed, 39½c.

Flax.—The flax market has been much quieter this week and although prices are fractionally higher it is thought advance is over for the present. Today's cash prices are 1 N.W.C., 115½c; 2 C.W., 115½c. Futures closed May 120½c; July 121½c.

All prices quoted above are for in store Fort William, Port Arthur and Duluth.

## C. P. R. Fighting for Traffic

London.—The Canadian Pacific's determination to secure for Canada a place in European emigration countries greatly chagrins Herr Ballinhead, of the Hamburg-American Steamship Company and allied German lines. They are fighting for the maintenance of their present monopoly. Berlin journals supposed to be under their guidance are embarking on a campaign against Canada, lauding Argentina as a better place for German and Austrian emigrants. Ballinhead and his associates are especially eager to retrain control of stations originally established by the German government on the frontier, but now manipulated by the Hamburg-American and other pool lines to keep huge emigration traffic for their ships running to New York and other American ports. The Austrian government resents delays and hardships to Austrians emigrants who suffer at these control stations on the way to Hamburg and Bremen, hence their encouragement of the direct Canadian Pacific service from Trieste to Montreal, commencing March 20th. A good share of Austria's 300,000 excellent emigrants yearly should be diverted to Canada via Trieste. It is also expected that the tussle over German control stations will result in Canadian lines from Antwerp and elsewhere securing a fair proportion of emigration traffic by northern ports.

## RAILWAY CHARTER RENEWALS

Calgary, Edmonton and Fort McMurray Ry. Bill Passed

Ottawa.—The old question of a renewal of railway charters came up before the Railway committee when a Northern Railway Company asked for a renewal. The Hon. Frank Cochrane, Minister of Railways, thought that there should be a yearly renewal of some provision to see that companies getting charters proceeded with the work.

Major Currie strongly objected to an act to incorporate the Calgary, Edmonton and Fort McMurray railway, on the ground that it was going over the exact territory of the Alberta and Great Waterways Railway Company line, whose troubles have resulted in litigation before Canadian and Imperial courts.

They had beaten the Alberta Government and were prepared now to go ahead and now another charter was granted over the same territory. J. E. Armstrong, East Lambton, who was in charge of the bill, assured the committee that it was not going over the identical territory.

The bill was passed.

## To Distract Attention of the Dominion

London.—The Yorkshire post, Unionist, puts forward the suggestion that the recent manifestation of Germany to conform to the sixteen to ten standard in battleships between ourselves and Germany may be perhaps because Germany wants to distract Canada's attention from the necessity of contributing to the Imperial fleet.

This, of course, the Post continues, is mere speculation. A point more immediately noteworthy is that Germany's readiness to moderate the rate of her warship construction has not apparently been officially made known to our foreign office. It is doubtful if in any case it would affect the British naval program of this year, which contemplates an extra two millions sterling expenditure.

## Mines Branch

Ottawa.—When Hon. Louis Codrere became secretary of state it was announced that the mines branch now under the interior department would be added to the state department, thus increasing its work and importance. An order-in-council is now going through making the transfer formally. The department comprises the mines branch and the geological survey.

London.—A meeting of Essex farmers at Pitsea, formed the Co-operative Utility Rabbit Club for the purpose of breeding rabbits for food.

## THE SUNDAY SCHOOL

LESSON VIII.—FIRST QUARTER,  
FOR FEB. 23, 1913

Text of the Lesson, Gen. xiii, 1-12. Memory Verse, 8.—Golden Text, Prov. x, 22.—Commentary Prepared by Rev. D. M. Stearns.

Abram's going down to Egypt was certainly a mistake on his part, for there was no altar to the Lord there nor any new revelation from the Lord, and Abram dishonored the Lord by fear and deceit and brought upon himself the rebuke of a man of the world, a heathen king. By all our conduct we are either honoring or dishonoring the Lord, magnifying Him or magnifying ourselves, and we would do well to test everything by this test. He is able to take care of His own people and His own work under all circumstances, and all He asks of us is a whole heart for Him, such an abiding in and separation unto Him that He shall not be hindered in working out His good pleasure.

When at any time we wander away from the Lord the only thing to do is to return as quickly as possible, for He is ever calling the wanderer to return, as in Isa. lv, 7; Jer. li, 14, 22; Hos. xiv, 1, 2, and the word of encouragement awaits both the unwary and the saved. "Him that cometh to Me I will in nowise cast out" (John vi, 37). It is good to see Abram back at the place of the altar between Bethel and Hai and to hear him calling on the name of the Lord (verses 3, 4) and to know that the Lord has abundantly pardoned him according to His word.

It may seem strange to some to see Abram very rich in cattle, in silver and in gold (verse 2) notwithstanding his wanderings from the Lord, but let such consider their own mercies and say if they have not been dealt with in loving kindness beyond all their deserts. Sometimes the Lord would draw us back to or closer to Himself by His great mercies, and we have all and always reason to say: It is of the Lord's mercies that we are not consumed, because His compassions fail not" (Lam. iii, 22).

Lot also was rich in flocks and herds, and his herds and those of Abram could not agree. So to prevent strife Abram told Lot to take his choice of territory and that he would take that which Lot did not desire. Thus magnanimous could this great man afford to be because he was the friend of God and the Lord was his portion. Being a witness for God before the Canaanites and the Philistines who dwelt in the land, he could not tolerate strife, for the servant of the Lord must not strive. (II Tim. ii, 24).

Meekness, lowliness and submission are always becoming in a child of God, but never strife, not even to maintain our so called rights. We are exhorted to take wrong and suffer ourselves to be defrauded rather than strive before unbelievers (I Cor. vi, 6, 7).

Without regard to the character of the people who lived on the plain, who are described as wicked and sinners before the Lord, exceedingly. Lot chose the plain of Jordan, because he saw that it would admirably suit his numerous flocks and herds (verses 10-13). It is said that he lifted up his eyes, but it was only to behold the low and fruitful valley of the Jordan. He did not behold the Lord nor consider His will in the matter. It was a case of self only.

It was good for Lot to be with Abram, but not so good for Abram to have Lot with him. Separation from Lot was really Abram's advantage and evidently pleasing to the Lord, for the Lord had another message for Abram as soon as Lot was separated from him (14-17). There was a renewed assurance that the Lord would give him the whole land and the promise that his seed would be as the dust of the earth (verse 16).

In verse 18 we see this friend of God dwelling with Him at Hebron, which signifies fellowship, away above the sinners of Sodom and in communion with God with his altar unto the Lord. This prepares us for the record in chapter xiv of the capture and captivity of Lot and his goods by the four kings, while Abram, living above and away from all the turmoil, is able to go with his 318 trained servants and rescue Lot and his people and all his goods. While mixed up with the world we cannot expect to have victory over it, and it is only as we dwell at Hebron in fellowship with God that we can hope to rescue others from the god of this world. First we see Lot pitching his tent toward Sodom, and then we see him dwelling in Sodom (xiii, 12; xiv, 12). Later we shall find him a ruler in Sodom, sitting in the gate—reigning in the world.

In the end of chapter xiv we have a wonderful record of a most remarkable man, a king and a priest, type of the Lord Jesus Christ when He shall be a priest upon His throne, a priest forever after the order of Melchizedek (Zech. vi, 13; Ps. cx, 4). Here we have for the first time the title: The Most High God, possessor of heaven and earth, and because Abram was blessed by Him he was able to turn his back upon the tempting offer of the King of Sodom concerning the goods. If the church today knew the Most High God and His blessing she would never be guilty of seeking the goods of Sodom to help her carry on her work. There is nothing so grand as to know God and find our all in Him.

## 15 Apaches Wreck a Ship

Paris.—Fifteen apaches broke into a wine shop in Montmartre at 1 o'clock in the morning, wrecked the bar, took the money from the till and tried to murder the proprietor. Three of them were arrested by the police during the night, but not before a policeman had been wounded and one of the apaches had been shot through the shoulder.

## Grace Darlings' Boat

London.—It was reported at a meeting of the council of Armstrong College, Newcastle, that Lady John Joice-Cecil had presented to the college the boat in which Grace Darling and her father went to the assistance of the crew of the wrecked Forthshire on Farne Island in September, 1838.

## MISCELLANEOUS

A. LAYZELL, Auctioneer  
100-8th Ave. E. Calgary. Phone M2873

## TOWN AND DISTRICT

Have you ever had any experience with the customs office? If so you will sign the petition in this issue.

A tea, under the auspices of the Ladies' Aid of the Church of England, will be held at the residence of Mrs. Jas. Cameron on Monday, Feb. 24, from 3 to 6 p. m.

Already quite a number have signed the customs office petition published in our last issue and sent them into the CALL and it is hoped all interested will not fail in complying with the Board of Trade, request. We will continue to publish the petition for several weeks to give every opportunity.

Monday evening after the regular meeting of the Oddfellows a very interesting debate was indulged on the question "Should Women Have Votes." Bros. Blackburne and Service taking the affirmative and Bros. Black and Farquharson the negative, while Bros. Ostrander, Whitely and F. Scott acted as judges. Space will not permit of a report of the arguments, but the judges gave the decision to the affirmative by two points.

Sunday an open meeting of the Holy Name Society was held in St. Victor's church, when nine new members were received into the society. President L. P. Grady has taken a very active interest in this commendable society, and after Fr. Simonin had opened the proceedings Mr. Grady gave an interesting and instructive address. The main object of the society is to prohibit profanity. Already the membership is nearly forty and it is expected that this will be doubled within the next few weeks as each member is endeavoring to swell the roll.

The death of Willie Johnston on Thursday morning last, Feb. 13, came as a shock to his school mates as well as to his father and mother. The little fellow was only a few months over seven years of age and although he had been suffering from a severe cold for some days previous it was not believed his illness was very serious until Dr. Akenhead was called in and pronounced he had tonsillitis. Every thing possible was done for him by the doctor and his parents but all efforts proved in vain. The funeral took place on Friday and the deepest sympathy is expressed for his father and mother in their hours of sadness.

Mrs. H. Harrison has favored the CALL with a statement of the crop on her farm three miles northwest of Gleichen. Mrs. Harrison states that on 40 acres of breaking, she raised 1,400 bushels of wheat, equivalent to 35 bushels per acre. Her oats yielded 4000 bushels, grading extra No. 1 feed, and that grown on summer fallow went up as high as 115 bushels to the acre, weighing 41 pounds to the bushel. She had scarcely an acre of barley, yet realized 60 bushels, which she sold at 27c. per bushel. On less than an acre she raised over 150 bushels of splendid potatoes. Besides this she had six acres of green feed, plenty of pasture for horses and cattle and a good garden on her quarter section. It will be remembered that at the Gleichen exhibition Mrs. Harrison won prizes on cabbage, carrots, garden and sugar beets, flax, etc., of which she is justly proud, and although her health did not permit her to give as careful supervision to her farm and garden last year as previously she is to be congratulated on being able to give such an excellent report.

Notice to  
Steam  
Engineers

NOTICE is hereby given that examinations will be held at the undermentioned places by Jos Buxton, a duly appointed Inspector of steam boilers for the Province of Alberta.  
Langdon, March 14th, Hotel Strathmore  
March 15th Maple Leaf Hotel.  
Gleichen, March 18th, Palace Hotel.  
Bassano, March 19th, Alberta Hotel.  
at 9 o'clock a.m. for the purpose of giving Engineers and Apprentices an opportunity of qualifying for certificates under the provisions of The Boilers Act, 1912.

Persons not already registered in the Province who desire application forms, may obtain same by applying to the Department, or the above named Inspector, and such application form must be properly filled out, witnessed, and declared to before a Commissioner or Justice of the Peace before an examination can be granted.

JOHN STOCKS,  
Deputy Minister,  
Department of Public Works,  
Edmonton, Alta.

## Calgary News-Telegram Knocks Gleichen

The Calgary News-Telegram did not create many friends in Gleichen in its report of the perjury case in its issue of last Saturday, and in fact it will take many moons for that paper to recover what it has lost by throwing slurs at this town.

This is the way the way the News Telegram starts off:—

"About 40 miles east of Calgary there is a little burg called Gleichen. If this flourishing village can boast of nothing else it certainly has a very classy bar—patrons imbibe very little other than champagne. The same habit resulted in one youth landing before Mr. Justice Carpenter, of the district court, Friday morning, charged with perjury."

The balance of the News-Telegram's story of the court proceedings is little better in exactness. In fact the News-Telegram should certainly apologize for inserting so mean and contemptible a slur on any town.

Referring to the News-Telegram's "if", it might be said that "if" that paper wanted some good "news" or "telegrams" explaining how Calgary comes to be on the map the "if" would largely relate to this "burg."

Just how a paper in a place like Calgary can indulge in such mean, low insinuations against as good a class of citizens as ever lived is hard to understand, especially considering that one Calgary alderman recently reported that several hundred young girls were their ruined, and on the same day the Calgary Herald comes out with a lengthy editorial on the evils of removing the women from the present red light district to another.

The CALL seldom knocks; but we think it up to the people of this town and district to knock the News-Telegram with both hands and feet.

The Agricultural Branch, Department of Natural Resources, Canadian Pacific Railway, Calgary, Alta., have been able to place farmers with good quality grain of all kinds for sale in communication with those who are open to purchase. The latest application which the branch has received is for timothy and clover seed, and anyone with good samples for sale will do well to submit them. They need not contain a large quantity of seed, but should in all cases be submitted with a Government test of germination. It is very important that samples should be cleaned.

A business man down in Arkansas crawled into a hollow log to get out of the rain. The thunder rolled, the rain came down in torrents, and the log swelled up until the poor fellow was unable to move. Face to face with a cruel death he began to think upon his sins. Finally he recalled that he did not advertise in the local paper, which made him feel so small that he crawled through a knothole and forthwith went and put in a big ad.

Why shouldn't women have suffrage? We let men vote who can't talk the English language and refuse the ballot to women who can talk enough for all of us!

The fact that a Calgary horse slept for two days caused quite lot of talk around town a short time ago. The fact that he awoke at the end of that time seems to be the peculiar part of the incident to Calgarians. It is said the horse lost his job delivering News-Telegrams at Gleichen.

Remember the United Farmers' Public Meeting on Friday, February 28th.
